DETAILED ACTION

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Drawings

Applicant should ensure that (1) all reference characters in the drawings are described in the detailed description portion of the specification and (2) all reference characters mentioned in the specification are included in the appropriate drawing Figure(s) as required by 37 CFR 1.84(p)(5).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. For example, in the claims, the following recitations are deemed vague and indefinite: "to advancing or retreating displacement of" (claim 1, line 8), "to realize" (claim 1, lines 9 and 10), "during course of closing displacement"

(claim 1, line 20), "the plurality of cutting tool elements; the central opening formed...elements: (claim 2, lines 2-5), "an A sliding surface, and a B sliding surface and a B top wall surface" (claim 3, lines 7 and 8), "the A sliding surface slides on the B Sliding surface....B top wall surface" (claim 3, lines 10-13), etc. Clarification is requested.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents are cited for further teachings of devices whose structure is similar to that instantly disclosed.
